SECTION 16: OTHER INFORMATION

OTHER INFORMATION: This material is a finished floor covering product. TAJ Flooring provides a Product Safety Data Sheet on all finished floor covering products.

Product Safety Data Sheets (PSDS) are provided for finished floor covering products based on the "article exemption" found in 29 CFR 1910.1200 (b) (6) (v). An article is defined as: "a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has an end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use, does not release more than very small quantities, e.g. minute or trace amounts of a hazardous chemical and does not pose a physical hazard or health risk to employees."

Material Safety Data Sheets for all sundry products (adhesives, maintenance products, etc.) can be obtained by contacting TAJ Flooring customer service at 888-652-2111.

Because most floor installations require adhesives, it is recommended that the user review the manufacture's recommendations for adhesive spread rate, open time, proper ventilation, safe installation practices, etc. prior to and during installation.
